II- APPLIED ACCOUNTING STANDARDS AND SYSTEM

1. Compliance with Vietnam Accounting Standards and Accounting System of credit institutions in Vietnam

The Board of Management confirms that the accompanying separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions and the statutory requirements relevant to preparation and presentation of financial statements.

2. Basis of preparation the financial statements

Separate financial statements of the Bank are presented in Vietnamese Dong ("dong" or "VND"), all amounts are rounded to the nearest million and presented in million Vietnamese Dong. The separate financial statements are prepared in accordance with the Accounting System for Credit Institutions in Vietnam under Decision No. 479/2004/QĐ-NHNN dated 29th April 2004 (Decision 479/2004) by the Governor of the State Bank of Vietnam and amending and supplementing to the Decision 479/2004, Decision No. 16/2007/QĐ-NHNN dated 18th April 2007 (Decision 16/2007) by the Governor of the State Bank of Vietnam, amending and supplementing to the Decision 16/2007 and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- ▶ Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series No.1);
- ▶ Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No.2);
- ▶ Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No. 3);
- ▶ Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series No. 4); and
- ▶ Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series No. 5).

Accordingly, the accompanying separate financial statements and their utilization are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the separate financial position and separate results of operations and separate cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

The Bank prepares the separate financial statements to reflect the Bank's own operations. In addition, the Bank has also prepared the consolidated financial statements to reflect the operations of the Bank and its subsidiaries in accordance with Vietnamese Accounting Standard No. 25 - Consolidated financial statements and accounting for investments in subsidiaries.

Users of the separate financial statements should read them together with the said consolidated financial statements in order to obtain full information on the consolidated financial position, the consolidated statement of income and consolidated cash flows of the Bank and its subsidiaries.

Items that are not presented in these separate financial statements regarding the financial reporting regime for credit institutions as required by Decision No. 16/2007/QĐ-NHNN and amending and supplementing regulations issued by the SBV indicate nil balance.

3. Fiscal year

The Bank's fiscal year starts on 1 January and ends on 31 December.

4. Basis for assessment and applied accounting estimates

The preparation of the separate financial statements requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the income, expenses and the resultant provisions. Such estimates are necessarily based on assumptions involving varying degrees of subjectivity and uncertainty and actual results may differ resulting in future changes in such items.

5. Changes in accounting policies and disclosures

MB's accounting policies are applied consistently among annual and interim financial reporting periods.

6. Cash and cash equivalents

Cash and cash equivalents comprise cash, gold, gemstones, current accounts at the SBV, Government bills and other short-term valuable papers which can be rediscounted with the SBV, securities, current placements with and deposit at other credit institutions with an original maturity of three months or less from the transaction date, which are highly liquid and readily convertible into certain amounts of cash and that are subject to an insignificant risk of change in value.

7. Placements with and loans to other credit institutions

Deposits with and loans to other credit institutions are stated and presented at the principal amounts outstanding at the reporting date.

The credit risk classification for placements with and loans to other credit institutions and corresponding provisions is made in accordance with Circular 31/2024 and Degree 86/2024. Accordingly, MB makes a specific provision for placements with (excluding current accounts) and loans to other credit institutions in accordance with the method described in Note 9.

According to Degree 86/2024, MB is not required to make a general provision for placements with and loans to other credit institutions.

8. Loans to customers

Loans to customers are presented at the principal amounts outstanding at the reporting date.

Provision for credit losses of loans to customers is accounted and presented in a separate line in the financial position.

Short-term loans have maturity of less than one year from disbursement date. Medium-term loans have maturity from one to five years from disbursement date. Long-term loans have maturity of more than five years from disbursement date.

The classification of loan and provision for credit losses are made in accordance with Circular 31 and Degree 86 as described in Note 9.

9. Provision for credit risk

Loan classification

The Bank classifies debts into the following groups: Current loan, Special mention loan, Sub-standard loan, Doubtful loan and Loss which are specified in Circular 31. Debts which are classified as Sub-standard loan, Doubtful loan and Loss are considered nonperforming debts.

Debts are classified according to quantitative methods specified in Articles 10 Circular 31.

- ▶ If a customer has more than one debt with the Bank and any of the outstanding debts is classified into a higher risk group, the entire remaining debts of such customer should be classified into the corresponding higher risk group.
- ▶ The Bank have been required to use the updated information from Credit Information Centre ("CIC") on the loan group of customers at the time of classification to adjust the classification results of their debts and off-balance sheet items.
- ▶ At the same time, the Bank also applied the regulations on restructuring and retention of the latest debt classification for the loans that meet the requirements of Decree No. 55/2015/ND-CP ("Decree 55") dated 9 June 2015 on credit policy for agricultural and rural development and the regulations amending and supplementing Decree 55.
- ▶ The Bank also applies Circular No. 53/2024/TT-NHNN ("Circular 53") issued by the SBV dated 4 December 2024 providing guidance for credit institutions and foreign bank branches on loan restructuring for borrowers in difficulties due to the impacts and damages of storm No. 3, floods and landslides afterward storm No. 3 and Decision of the Prime Minister No. 1510/QĐ-TTg issued on December 4, 2024 on asset classification, risk provisioning level, risk provisioning method and the use of provisions to handle risks for debts of customers facing difficulties due to the impacts and damages of storm No. 3

5	Loss	(a) Debts are overdue for a period of more than 360 days; or (b) Debts which the repayment terms are restructured for the first time but still overdue for a period of 91 days or more under that first restructured repayment term; or (c) Debts which the repayment terms are restructured for the second time but still overdue under that second restructured repayment term; or (d) Debts which the repayment terms are restructured for the third time or more, regardless of being overdue or not; or (e) Debts are specified in point (d) of Loan group 3 and overdue for a period of more than 60 days after decisions on recovery have been issued; or (f) Debts are required to be recovered under regulatory inspection conclusions but still outstanding with an overdue period of more than 60 days since the recovery date as required by regulatory inspection conclusions; or (g) Debts are required to be recovered according to the early debt recovery decision of a bank or non-bank credit institution due to the customer's violation of the agreement with the bank or non-bank credit institution have not been recovered for more than 60 days from the date of the recovery decision; or (h) Debts of credit institution that is under special control, a foreign bank branch whose capital and assets are being frozen; or (i) Debts are classified into group 5 as provided in Clause 3, Article 10 of Circular 31. (j) Debts are classified into group 5 as provided in Clause 4, Article 8 of Circular 31.	100%

The basis for determining the value and deductible value of each type of collateral is specified in Decree 86.

In addition, the Bank makes specific provisions for customers whose debts are rescheduled in accordance with Circular 53/2024 and Decision 1510 as follows:

- By 31/12/2024: At least 35% of the additional specific provision;
- By 31/12/2025: At least 70% of the additional specific provision
- By 31/12/2026: 100% of the additional specific provision.

General provision

General provision is appropriated at the rate of 0.75% of the total debt balance from group 1 to group 4 in accordance with debts classification under Circular 31/2024 excluding placements with and loans to other credit institutions and loans classified as loss. General provision as at 30 June 2026 is calculated based on the results of debt classification and principal balance as at 30 June 2026.

Bad debts written off

Provisions are recognized as an expense on the separate statement of income and used to write-off bad debts. According to Degree 86, The Bank establishes a Risk Handling Committee to deal with bad debts if they are classified in Group 5 or if the borrower is a dissolved, bankrupt organization or individual who is dead or missing.

Debts written-off against allowance are recorded as in appropriate off-balance sheet account for monitoring and collection purpose. The amount recovered from the debts previously written-off are recognised in the consolidated statement of income upon receipt.

10. *Debt purchase, sale*

Debt purchase and sale of the Bank are recorded in accordance with Circular 09/2015/TT-NHNN ("Circular 09/2015") and Circular 18/2022/TT-NHNN ("Circular 18/2022") of SBV regulating debt purchase and sale by credit institutions, foreign bank branches.

- ▶ Book value of a purchased and sold debt includes the book value of debt principal and interest and other debt-related financial obligations (if any) by the time of debt purchase and sale for the debt accounted on the balance sheet or off the balance sheet; or the book value being monitored at the time of being removed off the balance sheet or at the time of debt purchase and sale for the debt being removed off the separate statement of financial position.
- ▶ Debt purchase and sale price means a sum of money to be paid by a debt purchaser to a debt seller under a debt purchase and sale contract.

Debt purchase

For the purchased debts, the Bank classifies the paid amount into a group with risk level not lower than previous debt group that was classified before purchase. Debt classification and provision for debt purchases are made similar to loans to other customers according to the method as described in *Note 9*.

- ▶ The price of debt purchase under the contract is accounted on the balance sheet.
- ▶ The value of principal and interest of purchased debt is monitored off the balance sheet.
- ▶ If the interest of the debt including the interest before the Bank purchased the debt is collected, the Bank will allocate the interest on the following principle: (i) write down the value of debt purchase by pre-purchase interest; (ii) recognize as interest income of the period after the Bank purchases the debt.

Debt sale

Revenue and expense from selling debts are recorded in accordance with Circular 09/2015 and Circular 18/2022 the difference between the debt purchase, sale price and debt seller's book value is handled as follows:

- ▶ For the debts being recorded on the balance sheet:
 - If the debt sale price is higher than the book value of the debt, the difference shall be accounted as income of the Bank during the year.
 - If the debt sale price is lower than the value of the debt, the difference shall be offset with the compensation paid by an individual or an organization (in case such individual or organization is identified to have caused the damage and must pay compensation under regulations), the insurance sum paid by the insurer or the risk provision already set aside from expenses; the deficit shall be accounted as a business cost of the Bank during the year.
- ▶ For the debt accounted off the balance sheet or debt left off the statement of financial position, the debt sale proceeds shall be accounted as other income of the Bank.
- ▶ Debt classification and provisioning for debt sold (except for written-off loans) that have not yet been fully collected are performed similarly to loans to other customers according to the method as described in *Note 9*.

11. Securities held for trading

Trading securities are debt securities, equity securities and other securities purchased for trading purposes. Trading securities are initially recognized at cost.

Listed trading debt securities are recognized at cost less provision for impairment of securities. Provision for impairment is recorded in the Statement of Income under the item "Net gain from trading securities".

Corporate bonds that are not listed on the stock market or not registered for trading in the transaction market of unlisted public companies will be classified and made a risk provision presented in Note 9.

Gains or losses from sales of trading securities are recognized in the consolidated statement of income. Trading securities are derecognized when the rights to receive cash flows from these securities have expired or the Bank has transferred substantially all risks and rewards of ownership.

12. Investment securities

12.1 Available-for-sale investment securities

Available-for-sale investment securities include debt securities and equity securities held by the Bank for the investment and available-for-sale purposes, not regularly traded but can be sold when there is a benefit.

Available-for-sale equity securities are securities listed on securities markets. They are initially recognized at cost on the trade date and continuously presented at cost in subsequent periods.

Available-for-sale debt securities are recognized at par value at the transaction date. Accrued interest (for debt securities with interest payment in arrears) and deferred interest (for debt securities with interest payment in advance) is recognized in a separate account. Discount/premium, which is the difference between the cost and the amount being the par value plus (+) accrued interest (if any) or minus (-) deferred interest (if any) is also recognized in a separate account.

In subsequent periods, these securities are continuously recorded at par value, and the discount/premium (if any) is amortized to the separate statement of income on a straight-line basis over the remaining terms of securities. The interest received in arrears is recorded as follows: Cumulative interest incurred before the purchase date is recorded as a decrease in the accrued interest; cumulative interest incurred after the purchase date is recognized as income based on the accumulated method. The interest received in advance is amortized into the securities investment interest income on a straight-line basis over the terms of the securities investment.

Available-for-sale securities are subject to impairment review on a periodical basis.

Provision for diminution in value of securities is made when the carrying value is higher than the market value. Provision is recognized in the "Net gain/(loss) from investment securities and long-term investments" in the separate statement of income.

Classification and provision for credit losses of corporate bonds which are not listed on the stock market or not registered on the unlisted public company market is made in accordance with the method as described in Note 9.

12.2 Held-to-maturity investment securities

Held-to-maturity securities are debt securities purchased by Bank for investment purpose to earn interest and Bank has the intention and ability to hold these securities to maturity. Held-to-maturity securities have determinable value and specific maturity date. In the event that securities are sold out before maturity, these securities will be reclassified to trading securities or available-for-sale securities.

Held-to-maturity investment securities are recorded and measured similarly to debt securities available-for-sale as presented at Note 12.1.

13. Investment in subsidiaries

Investments in subsidiaries are recognized by the cost method in the Bank's separate financial statements. Dividend distributed from after-tax profit of subsidiaries are recorded in the statement of income.

Provisions for impairment of investments in subsidiaries are made for each impaired investment and are subject to revision at the end of annual accounting period. The Bank makes provision for investments in subsidiaries if there is firm evidence to indicate that there is an impairment in the value of these investments at the reporting date. Increase or decrease of provision balance is recognized in "*Net gain/(loss) from securities held for trading, investment securities and long-term investment*" in the statement of income.

14. Other long-term investments

Other long-term investments are investments in other entities in which the Bank holds less than or equal to 11% of voting rights and securities of these entities are not listed on the stock market. These investments are initially recorded at cost at the transaction date.

Provision for diminution in the value of investment is made when there is substantial evidence indicating a decline in the value of these investments at the end of the year.

The provision is reversed if the recoverable amount of the investments increases after making provision. It is reversed to the extent that the carrying value of these investments does not exceed the carrying value of the investment assuming that no allowance has been recorded.

Increase or decrease in provision for long-term investments is recognized in "*Net gain/ (loss) from investment securities and long-term investments*" on the separate statement of income.

15. Fixed assets

Fixed assets are stated at cost less accumulated depreciation or amortization.

The cost of a fixed asset comprises its purchase price plus any directly attributable cost of bringing the asset to working condition for its intended use.

Costs related to additions, improvements and renewals are capitalized while expenditures for maintenance and repairs are charged to the separate statement of income.

When assets are sold or liquidated, their cost and accumulated depreciation/amortisation are deducted from the separate statement of financial position and any gains or losses resulting from their disposal (being the difference between net proceeds from the sale of assets and the remaining value of assets) are recorded to the separate statement of income.

16. Depreciation and amortization

Depreciation of tangible fixed asset and amortization of intangible fixed assets is calculated on a straight-line basis over the estimated useful lives of these assets as follows:

Buildings and construction	6-50 years
Machines and equipment	3-8 years
Transportation vehicles	6-10 years
Other tangible fixed assets	3-8 years
Land use rights (*)	30-50 years
Computer software	3-8 years

(*) Indefinite land use rights with fees or by transfer are not amortized. Land use rights with definite terms or leased land use rights are amortized over the lease terms or the period of use.

17. Receivables

17.1 Receivables classified as credit risk-bearing assets

Receivables classified as credit risk-bearing assets are recognized at cost and classified and provided for allowance by the Bank in accordance with the method described in Note 9.

17.2 Other receivables

Other receivables not classified as credit risk-bearing assets of the Bank are initially recorded at cost and always carried at cost subsequently.

Provision for receivables is determined based on the overdue status of debts or expected loss of current debts in case the debts are not due for payment yet but the corporate debtors have bankrupted or have fled from business address, or of individual debtors who are being prosecuted, detained or tried by law enforcement bodies or have deceased or the debt has been requested to be tried but cannot be executed due to the debtor having fled his place of residence; the debt has been sued for debt collection but the case has been suspended. Provision expense incurred is recorded in "Provision expenses" on the separate statement of income.

Provision for overdue debts is made as follows:

Overdue status	Allowance rate
From over six months to under one year	30%
From one to under two years	50%
From two to under three years	70%
From three years and above	100%

18. Prepaid expenses and deferred expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the separate statement of financial position and amortized over the period for which the amount is paid or the period in which economic benefit is generated in relation to these expenses.

19. Goodwill

Goodwill acquired in a business combination is initially recognized at cost being the excess of the cost the business combination over the Bank's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the separate statement of income. After initial recognition, goodwill is recognized at cost less any accumulated amortization. Goodwill is amortized on a straight-line basis over a period of ten (10) years.

20. Re-purchase and reverse-repurchase contracts

Securities sold under agreements to repurchase at a specific date in the future (repos) are still recognized in the separate financial statements. The corresponding cash received from these agreements is recognized in the separate statement of financial position as a borrowing and the difference between the sale price and repurchase price is amortized in the separate statement of income over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract over the term of the agreement.

Conversely, securities purchased under agreements to resell at a specific date in the future are not recognized in the separate financial statements. The corresponding cash paid under these agreements is recognized as a loan in the separate statement of financial position and the difference between the purchase price and resale price is amortized in the separate statement of income over the term of the agreement using the straight-line method based on the interest rate stipulated in the contract over the term of the agreement.

21. Operating lease

Payments for operating lease are recognized in the separate statement of income for the on straight line basis based on duration of lease contract.

22. Dues to the Government and the State Bank

Dues to the Government and the State Bank are recognized at cost.

23. Deposits from other credit institutions and customers, other borrowed and entrusted funds and valuable papers issued

Deposits from other credit institutions, customer deposits, other borrowed and entrusted funds and valuable papers issued are disclosed at the principal amounts outstanding at the end of the year. At the date of initial recognition, expenses for bond issuance are deducted from the principal amount of the bonds. The Bank then allocates these expenses into "*Interest and similar expenses*" on a straight-line basis according to the terms of value papers.

24. Foreign currency transactions

According to the accounting system of the Bank, all transactions are recorded in original currencies. Monetary assets and liabilities denominated in foreign currencies are translated into VND using exchange rates ruling at the separate statement of financial position date (*Note V.6*). Income and expenses arising in foreign currencies during the year are converted into VND at rates ruling at the transaction dates. Foreign exchange differences arising from the translation of monetary assets and liabilities are recognized in the separate statement of income.

25. Payables and accruals

Payables and accruals are recognized for amounts to be paid in the future for goods and services received, whether or not billed to the Bank.

26. Capital and reserves

26.1 Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares are recognized as a deduction from share premium in equity.

26.2 Share premium

On receipt of capital from shareholders, the difference between the issuance price and the par value of the shares is recorded as share premium in equity.

26.3 Treasury shares

Treasury shares are recognised only in respect of repurchased shares which are aggregated fractions of share arising when the company issues shares to pay dividends or issues shares from equity reserves in accordance with an approved issuance plan, or repurchased fractional-lots of shares as requested by the shareholders. Odd shares represent the share capital formed by combining the fractional shares divided proportionally to investors. In all other cases, when shares recognised as equity are repurchased, their par value amount is recognised as a reduction to share capital. The difference between the par value and the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is included in share premium.

26.4 Reserves

Reserves are for specific purposes and appropriate from net profit after tax of the Bank at prescribed rates as below and according to the Resolution of the General Meeting of Shareholders based on the ratios prescribed in the Law on Credit Institutions and Decree No. 135/2025/ND-CP:

- ▶ Supplementary charter capital reserve: 10% of net profit after tax and does not exceed charter capital;
- ▶ Financial reserve: 10% of net profit after tax after appropriation to the supplementary reserve for charter capital;

Other reserves: are to be made upon the current regulations and resolution of the General Shareholders' Meeting.

27. Recognition of income and expenses

27.1 Interest income and expenses

Interest income and expenses are recognized in the separate statement of income on an accrual basis. The recognition of accrued interest income of a loan is suspended when such debt is classified in groups 2 to 5 in compliance with Circular 31 and restructured under Degree 55 and Circular 53/2024 will not be recognized in the separate statement of income. Accrued of those loan are reversed and monitored off-balance sheet and recognized in the separate statement of income upon actual receipt.

27.2 Banking services fees

Banking services fees are recognized when the services are performed.

27.3 Income from investment activities

Income from securities trading is recognized based on differences between selling price and cost of securities sold.

Cash dividend is recognized in the separate statement of income upon formation of cash dividend right.

Dividend paid in the form of common shares, bonus shares and right shares for existing shareholders, shares distributed from retained earnings are not recognized as an increment in investment value or income of the Bank only the quantity of shares is updated.

27.4 Income from other services

When the result of the contract is definitely determined, income is recognized based on the stage of completion of work or service. If the result of the contract is not determined, income is only recognized to the extent of recoverable amount of expenses incurred.

27.5 Recognition of uncollectible receivables

According to the Law on Credit Institutions No. 32/2024/QH15 dated 18 January 2024 guiding on the financial regime for credit institutions and foreign bank branches, receivables from uncollectible accrued income at the due date are recorded as reduction in revenue if the income has been accrued in the same year or recorded as expense if the income has been accrued in different years and monitored in off-balance sheet. Upon actual receipt of these receivables, the Bank would recognize to income on the separate statement of income.

28. Corporate income taxes

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from (or paid to) the tax authorities – using the tax rates and tax laws applied and enacted at the end of the annual accounting period.

Current income tax is charged or credited to the separate statement of income except when it relates to items recognized directly to equity, in this case the current income tax is also recognized in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Bank to offset current tax assets against current tax liabilities and when the Bank intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided on temporary differences at the end of the annual accounting period between the tax base of assets and liabilities and their carrying amount for the financial reporting purposes.

Deferred tax payables are recognized for temporary taxable differences.

Deferred tax assets are recognized for all deductible temporary differences, deductible amounts carried over subsequent periods of taxable losses and unused tax credits when it is probable that there will be sufficient taxable profit to use deductible temporary differences, taxable losses and tax credits. Previously unrecognized deferred tax assets are reviewed at the end of the year and are recognised only to the extent that it is probable that future taxable profits will be available against which these unrecognized deferred tax assets can be utilised. Deferred tax assets and deferred tax liabilities are determined on the basis of expected tax rate applied when assets are recovered or liabilities are settled and on the basis of tax rate and tax laws which effective at the end of the annual accounting period.

29. Derivatives

The Bank enters in currency forward contracts and swap contracts to facilitate customers to transfer, modify or mitigate foreign exchange risk or other market risks, and also for the business purpose of the Bank.

Currency forward contracts

The forwards contracts are recorded at nominal value at the transaction date and are revalued at spot exchange rate at the reporting date and are stated at net value in the separate statement of financial position. Differences upon revaluation at the end of the period are recognised in the "Foreign exchange differences" account in the separate statement of financial position each month and are transferred to the separate statement of income at the end of the annual accounting period or upon maturity. Differences between the amounts in VND of the foreign currency amounts which are committed to buy/sell at forward rate and spot rate are recognised in the separate statement of income on a straight-line basis over the term of the contracts.

Swap contracts

The currency swap contracts are commitments to buy or sell the same amount of foreign currency (only two currencies are used in the transaction) with the same partner, in which there is a transaction with the spot payment term and a transaction with a payment period determined in the future and the rate of the two transactions is determined at the time of determination of spot transaction. Premiums/discounts arising from the difference of the spot exchange rate at the effective date of the contracts and the forward exchange rate will be recognised immediately on the effective date of the contracts as an asset if they are positive or as a liability if they are negative in the separate statement of financial position. This difference is amortised to the separate statement of income on a straight-line basis over the term of the swap contracts.

Interest rate swap differences are recognized in the income statement on an accrual basis.

30. Employees benefits

30.1 Post-employment benefits

Post-employment benefits are paid to retired employees of the Bank in Vietnam by the Social Insurance Agency of the Ministry of Labor, Invalids and Social Affairs. The Bank is required to contribute to these post-employment benefits by paying social insurance and occupational accident and disease insurance at the rate of 17% and 0.5%, respectively of the employee's basic monthly salary. Other than that, the Bank has no further obligation. Social insurance and occupational accident and disease insurance are recognized in the separate statement of income when incurred.

30.2 Voluntary resignation benefits

The Bank has the obligation, under Article 46 of the Vietnam Labor Law 45/2019/QH14 comes into force from 1 January 2021, to pay allowance arising from voluntary resignation of employees who fully meet the requirements of relevant laws and regulations, equal to one-half month's salary for each year of employment up to 31 December 2008 plus salary allowances (if any). The average monthly salary used in this calculation is the average monthly salary of the latest year up to the resignation date. Allowance arising from voluntary resignation is recognized in the separate statement of income when payments are made.

Contingent liabilities and commitments

In the course of its business, the Bank performs financial instruments related to items other than the separate statement of financial position. These financial instruments mainly include guarantees of guarantees and letters of credit. These instruments also create credit risks for the Bank in addition to the credit risks recognized in the balance sheet.

Credit risk of off-balance sheet financial instruments is defined as the ability to introduce credit risk to the Bank when one of the parties related to such financial instrument fails to perform the terms of the contract.

Financial guarantees are conditional commitments that the Bank grants to customers to transact with a third party in the activities of loan guarantee, payment guarantee, contract performance guarantee and bid guarantee. The credit risk associated with the granting of guarantees is essentially the same as that of lending to customers.

A sight commercial letter of credit transaction is a type of transaction in which the Bank provides financing to its customers, usually the buyer/importer of goods and the beneficiary being the seller/exporter. Credit risk in a sight letter of credit is usually low since imported goods are used as collateral for this type of transaction.

A deferred letter of credit transaction will incur a risk when the contract has been performed but the customer does not pay the beneficiary. Deferred payment letters of credit that are not paid by the customer are recognized by the Bank as a mandatory loan and the corresponding liability represents the Bank's financial obligation to pay the beneficiary and fulfil its obligations in guaranteeing for customers.

Banks often require customers to deposit to secure credit-related financial instruments when necessary. The margin value ranges from 0% to 100% of the committed value granted, depending on the customer's reliability level as assessed by the Bank.

2. Related party transactions

During normal business operation, the Bank has undertaken transactions with other parties to which the Bank is related. A party is considered to be related if the party has ability to control or to influence other parties in making decision of financial policies and operational activities. The party is related to the Bank if:

(a) Directly or indirectly through one or more intermediaries, the party:

- ▶ controls, is controlled by or is under general control of the Bank (including parents and subsidiaries);
- ▶ has contributed capital (owning 5% or more of the charter capital or voting share capital) in the Bank that give it significant influence over the Bank;
- ▶ has joint control over the Bank.

(b) The party is a joint venture in which the Bank is a venture or an associate (owning 11% or more of the charter capital or voting share capital, but not a subsidiary of the Bank);

(c) The party has a member who is key personnel of the Board of Directors or the Board of Management of the Bank;

(d) The Party is a close member the family of any individual referred to in (a) or (c); or

(e) The party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such company resides with, directly or indirectly, any individual referred to in (c) or (d);

5. Risk management policies related to financial instruments

The Bank's orientation is to become a diversified financial group. Therefore, the use of financial instruments, including funding from customers (with deposit products and valuable papers issued) and investments in high quality financial assets has become the key activities to help the Bank gain necessary interest rate gaps. From the risk management perspective, the Bank is required to maintain the structure of assets, liabilities and equity (including balance sheet items and off-balance sheet items) for the purpose of ensuring safety and mitigating risks in banking activities. In addition, the Bank has invested in securities or granted credit facilities to other banks. The risks related to currency exchange and interest rates have been managed through applying of position limits to restrict over-concentration and simultaneously participating in activities with balancing impact to minimise risks. By holding various assets being high quality financial instruments, the structure of the Bank's interim separate statement of financial position would be able to protect the Bank from significant risks during its business processes and ensure liquidity. In addition, the Bank has been also involved in many derivatives transactions related to financial instruments such as currency forward commitments, currency swap commitments, and interest rate swap commitments for the purpose of managing currency risk.

In the process of credit risk management, the Bank has adopted the Credit Handbook which provides in details the lending policies and procedures as well as implementation guidance on standardisation of the Bank's credit activities. Liquidity risk is limited by holding appropriate amounts of cash and cash equivalents as demand deposits ("Nostro"), term deposits at the SBV and other credit institutions and valuable papers. The safety ratios with risk factors taken into account are also used to manage liquidity risk. The Bank has regularly assessed interest rate gaps, compared to the gaps of domestic markets and international markets to make timely adjustments. In addition, the application of internal risk management processes has become more efficient owing to the deployment of Centralised Capital Management System and Centralised Payment System in which all capital and payment transactions of the Bank are executed by the Head Office. Such centralisation has also helped the Bank to monitor capital movements more effectively and reduce any possible errors and unnecessarily complicated procedures.

5.1 Credit risk

Credit risk is the inherent risk in the business activities of banks, Credit risk is the possibility of loss due to customers' failure to perform or inability to perform their obligations as committed.

The Bank has maintained an appropriate risk management policy to ensure these following basic principles:

- ▶ Establish appropriate credit risk management environment;
- ▶ Operate under healthy credit granting procedure;
- ▶ Maintain managing, measuring and supervising procedure; and
- ▶ Ensure adequate control on credit risk.

The Bank conducts credit review through multiple levels to ensure that a credit is independently reviewed; at the same time, the loan approval is done on the basis of the credit limit assigned to each competent level. In addition, the Bank's credit approval model has the participation of the Credit Council to ensure that credit approval activities are concentrated with the highest quality.

The Bank is using an internal credit rating system approved by the SBV as a management tool to manage credit risk, whereby each customer is rated at a risk level. This risk level may be revised and updated from time to time. Data and ratings of customers throughout the system are controlled and centrally managed at the Head Office. This is the basis for granting credit and providing services to customers as well as making provision for credit risks in accordance with regulations.

5.2 Market risks

5.2.1 Interest risks

The Bank's operations are subject to the risk of interest rate fluctuations to the extent that interest-earning assets and interest-bearing liabilities mature at different times or in differing amounts. Some assets have indefinite maturities or interest rate sensitivities and are not readily matched with specific liabilities.

The following table shows the Bank's assets and liabilities classified by the practical interest rate re-pricing period which is the remaining period from the end of accounting period to the most recent interest rate re-pricing period of assets and liabilities items.

The following assumptions and conditions have been adopted in the analysis of re-pricing period of interest rate of the assets and liabilities of the Bank:

- Cash, gold and gemstones; deposits at the State Banks, long-term investments and other assets (including fixed assets and some other assets) are classified as non-interest bearings;
- Securities held for trading are classified as up to one (1) month;
- The interest rate re-pricing period of investment securities is determined as follows:
 - Items with fixed interest rates for the duration of the contract: The interest rate re-pricing term is based on the actual maturity from the end of accounting period;
 - Items with floating interest rates: The effective interest rate re-pricing term is based on the latest interest rate re-pricing date from reporting date;
 - Investment securities and trading securities which are equity securities are classified as not affected by interest rate re-pricing.
- The interest rate re-pricing period of deposits and loans to Credit institutions; loans to customers and credit extension entrustment; due from the Government and the State Bank; deposits and loans from Credit institutions; customers' deposits; other borrowed and entrusted funds and valuable papers issued are determined as follows:
 - Items with fixed interest rates for the duration of the contract: The interest rate re-pricing term is based on the maturity from the end of the accounting period;
 - Items with floating interest rates: The interest rate re-pricing term is based on the latest interest rate re-pricing date from the end of accounting period;
- Other liabilities are classified as not affected by interest rate re-pricing.

5.2.2 Currency risks

Currency risk is the risk that the value of a financial instrument fluctuates due to changes in foreign exchange rates. The Bank was incorporated and operates in Vietnam, with VND as its reporting currency. The major currency in which the Bank transacts is VND. The Bank's loans and advances to customers were mainly denominated in VND and USD. Some of the Bank's other assets are in currencies other than VND and USD. The Bank's management has set limits on positions by currency based on the internal risk assessment system of the Bank and regulations of the SBV. Positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

5.2.3 Liquidity risks

Liquidity risk includes the risk of being unable to fund assets at appropriate maturities and rates and the risk of being unable to liquidate an asset at a reasonable price and in an appropriate time frame.

The Bank uses appropriate risk measurement with operation scale and availability of information system, ensuring risk reduction requirements are met. Liquidity risk is measured through the use of indicators related to cash flows, capital mobilisation capability, and asset liquidity of the Bank. The Bank also has a designated unit to obtain updated domestic and foreign economic information, which directly affects the Bank's trading book and business strategies, as well as on forecasting movements of market factors such as the foreign exchange rate, interest rate and gold price for timely risk warnings. The Bank also establishes and applies a limit system and decision authority at each level based on results of risk measurement for each category.

The following table provides an analysis of the assets and liabilities of the Bank into relevant maturity groupings based on the remaining period from the reporting date to repayment date. In practice, the actual maturity of assets or liabilities may differ from contractual terms based on the addenda to the contracts which may exist.

The following assumptions and conditions have been adopted in the analysis of the maturity period of the Bank's assets and liabilities:

- ▶ Balances at the State Bank are classified as demand deposits, including compulsory reserve deposits. The balance of compulsory reserve deposits depends on the composition and terms of the Bank's deposits from customers;
- ▶ The maturity term of placements with and loans to credit institutions and loans to customers is determined based on the maturity date of the specified contract. Actual maturities may vary as loan agreements are extend, In addition, customer loans are recorded at principal value excluding risk provisions;
- ▶ Securities held for trading are classified into items with terms within one (1) month;
- ▶ The maturity investment securities being debt securities is determined based on the maturity date of each type of securities;
- ▶ The maturity term of available-for-sale investments which are equity securities and equity investments are classified into items with terms from one (1) year to five (5) years since these investments have no maturity date;
- ▶ Deposits and borrowings from other credit institutions and customer deposits are determined based on the nature of these items or the maturity date on the contract. Demand deposits are determined based on the results of customer behavior model analysis. The maturity term for borrowings and term deposits is determined based on the maturity date in accordance with the contract;
- ▶ The maturity of the valuable paper issued is determined based on the maturity date of each valuable paper; and
- ▶ The maturity term of fixed assets is determined as having term from one (1) to five (5) years,
